**MCoE Regulation 190-11, PHYSICAL SECURITY of PRIVATELY OWNED ARMS, AMMUNITION, and EXPLOSIVES, Dated 11 August 2014**

**Chapter 2, Paragraph 2-1, General Weapons Policy**

- a. The introduction or carrying of privately owned weapons, explosives and ammunition on Fort Benning is prohibited unless specifically authorized as outlined in this regulation.
- c. Persons may not display, brandish, wave, wield, show, flash, or present a weapon in public, in a threatening manner or as a threat to another person.
- d. Persons may not openly carry a privately owned firearm in public except while participating in an authorized shooting or hunting event at the event site or hunting area.
- e. The carrying of a concealed weapon on the installation is prohibited regardless of whether a state or county permit has been obtained. For the purpose of this regulation, a concealed weapon is any instrument used or designed for the purpose of inflicting grievous bodily harm that is carried on a person in such a way as to be hidden from ordinary view. Folded knives with blades shorter than 3 inches are excluded from this definition.
- l. Personnel authorized access to the installation may temporarily secure, or transport privately owned firearms or other weapons to functions or activities involving those weapons (such as hunting, sports shooting, or other legitimate reasons) subject to the provisions of this regulation.

**Chapter 2, Paragraph 2-4, Transporting of Firearms.**

Personnel may transport authorized weapons on or off post for hunting, sports shooting, or other legitimate reasons, to include recognized functions or activities involving a firearm. a. When transporting firearms, personnel will ensure:

- (1) The firearm(s) is unloaded and separated from the ammunition. The term "separated" means that the ammunition is not attached or affixed to the firearm and is not stored inside the case with the firearm. Ammunition may be stored in a pocket or compartment on the outside of the case.
- (2) All firearms will be transported in a gun case, secured and not in plain view from outside the vehicle. If the vehicle has a trunk the firearm must be transported in the trunk. Regardless of whether the vehicle has a trunk or not, the firearm must be placed in a hard or soft case with the ammunition separated from the firearm. Firearms in a "gun sock" or holster will not be considered cased. The actual firearm cannot be in "plain view." Therefore, a firearm enclosed in a standard hard or soft case is NOT in "plain view." At no time should a firearm, cased or un-cased, be transported in window gun racks. Under no circumstances may an uncased firearm be transported under or behind a seat or in a glove compartment, console, seat pouch or similar location
